

Mississippi State Capitol Bingo – Instructions

1. Have your students pair up into teams (or individuals if a smaller class).
2. Print the Bingo Card for each team (or each student).
3. Print the card with questions and the answer key card for the **teacher**.
4. Cut the question card up into individual squares and put in a box. Each question corresponds to a spot on the Bingo Card.
5. Designate a student to draw and read the questions to the teams/individuals.
6. The teams may designate a captain to answer on their behalf.
7. Have the captains (or students if individually playing) raise their hands if they or someone on their team knows the answer.
8. **If a correct answer is given**, the team/student may mark off their spot on the Bingo Card.
9. **If an answer is incorrect**, the other teams/students may have a chance to answer.
10. **If no one gets the correct answer**, the question must be returned to the box to be asked again later in the game.
11. The winner is the team or the person who has a line across the board either horizontally, vertically, or diagonally.
